Internship 6 – Domestic Climate Policy

Contact: Sarah Adair, Associate in Research, Climate and Energy Program

This position will assist Nicholas Institute for Environmental Policy Solutions staff and Duke faculty in the evaluation of potential approaches to domestic climate policy—such as a carbon tax, sector-based standards, and economy-wide emissions trading—on key parameters including cost, climate impact, and political feasibility. Students may contribute to policy research, data analysis, and report writing. Students may also help plan and attend stakeholder engagement events.

The ideal candidate will have a working knowledge of climate and energy policy, strong quantitative and qualitative abilities, and be capable of working both independently and as a member of an interdisciplinary team.

To apply, please send a cover letter and resume to sarah.adair@duke.edu by August 28.
