Internship 2 – Energy Policy & Modeling

Contact: Etan Gumerman, Senior Policy Analyst

This position will primarily be focused on projects evaluating power plant emissions, renewable energy, and energy efficiency policies. Students can expect to be engaged in research, data analysis, report writing, editing, and potentially stakeholder outreach. The candidate will be using inputs/outputs for the NEMS or the Aurora energy model and may have the opportunity to learn how to run the models.

This work falls under both the Nicholas Institute’s Climate and Energy and Environmental Economics programs.

To apply, please send a cover letter and resume to etan.gumerman@duke.edu by August 28.
