Point aux Pins Living Shorelines

Project ID: 59 | Project Status: Monitoring/O&M

Description:
The project will employ living shoreline techniques that utilize natural and/or artificial bre shorelines along an area in Portersville Bay in the Mississippi Sound near Point aux Pins project will create breakwaters to dampen wave energy and reduce shoreline erosion wh increasing benthic secondary productivity. Over time, the breakwaters are expected to p benthic secondary productivity, including, but not limited to, bivalve mollusks, annelid w forage fishes.

Recent Update:
In 2023, the third year of monitoring was completed.

Trustee Implementation Group(s):
• Alabama

Implementing Trustee(s):
• Alabama Department of Conservation & Natural Resources (ADCNR)

Restoration Type(s):
• Wetlands, Coastal and Nearshore Habitats

Restoration Phase:
• Early Restoration Phase 4

Plan:
• Phase IV Early Restoration Plan

General Location(s):
• Alabama

Total Authorized Budget:
• \$3,800,000.00

Site Location(s):

GULF SPILL RESTORATION
