Project ID: 263 | **Project Status:** Monitoring/O&M**Description:**

The project created 335 acres of marsh near Bayou Grande Cheniere and approximately containment dike. Sediment from the Mississippi River borrow areas was dredged to ob

Recent Update:

In 2023, construction of the project was completed.

Project Modifications:

Originally, it was anticipated that this project would create up to 624 acres of marsh near Bayou Grande Cheniere, approxi ridge along Jefferson Canal, and approximately 48,900 linear feet of earthen containment dike. During the project's engine than expected water depths, inadequate soil depth coverage of an existing oil and gas pipeline, and inability to acquire sig removal of all of marsh creation area 1, some of the earthen ridge, and a section of marsh creation area 2 from the project approximated the creation of 366 acres of marsh creation and 4,410 linear feet of earthen ridge. Construction bids for the and the apparent low bidder's base bid was over the budget amount. The project scope was again revised eliminating the the marsh creation to 341 acres. Project modifications were approved in Resolution #LA-2022-023. Post Construction ac
